PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer with professional experience in scalable e-commerce systems, responsive web applications, and real-time platforms. Strong technical proficiency spanning JavaScript, TypeScript, React.js, Next.js, PHP, SQL, Rust, and mobile development. Holds an engineering background with an honors distinction, bringing structured analytical thinking, efficient problem-solving, and rapid adaptability to modern agile workflows.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, PHP, Python, SQL, Rust, Dart, HTML5, CSS3
- **Frontend:** React.js, Next.js, Tailwind CSS, Responsive Design, State Management
- **Backend & Databases:** PHP, NestJS, MySQL, SQL, WebSockets, RESTful APIs
- **Platforms & Tools:** Magento 2, Hyvä Theme, Flutter, Git, Advanced Git, Browser Extensions
- **Spoken Languages:** English (Very Good), Italian (Good)

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer | Scandiweb | *Sep 2025 – May 2026*

- Contributed to production-grade enterprise e-commerce solutions utilizing Magento 2 and the Hyvä theme framework.
- Implemented frontend components and full-stack functionalities adhering to modern software development standards and performance best practices.
- Collaborated across agile sprints, participating in code reviews, bug resolution, and streamlined Git workflows.

Electrical Technical Office Engineer | *Jan 2022 – May 2025*

- Worked across 3 companies specializing in electrical engineering, technical office operations, and project delivery.
- Prepared detailed electrical engineering drawings, single-line diagrams, and shop drawings following client specifications and standard codes.
- Managed project cost estimation, material pricing, bill of quantities (BOQ) preparation, and vendor procurement workflows.

FEATURED SOFTWARE PROJECTS

Learn Coptic Language – Mobile & Web Application | *Flutter, Dart, TypeScript, Next.js, Tailwind CSS*

- Engineered a cross-platform learning platform delivering bilingual (Arabic/English) educational content across multiple progression stages.

- Integrated structured multimedia modules including synchronized audio, dynamic vocabulary lists, grammar guides, and scriptural texts.

La Place – Rental Web Platform | *Next.js, Tailwind CSS, NestJS, SQL, WebSockets*

- Architected an end-to-end property rental web application inspired by Airbnb, supporting listing management and booking lifecycles.
- Implemented real-time communication via WebSockets for direct host-renter messaging, notifications, e-contracts, and admin interactions.

Paper.io Multimode Game | *Rust, WebSockets, Next.js, Tailwind CSS, TypeScript*

- Developed an interactive multiplayer game engine featuring real-time state synchronization over local network and online servers.
- Programmed competitive modes (Time Attack, Killer, Target) alongside power-ups, collectibles, and low-latency interaction handling.

Coptic Dictionary Web Application | *Next.js, Tailwind CSS, SQL*

- Built an interactive linguistic translation tool designed to convert Arabic sentences into Coptic based on contextual grammar rules.
- Structured relational database queries in SQL for rapid lexicon lookup, parsing, and efficient data retrieval.

EDUCATION

Bachelor of Science in Electrical Power and Machines Engineering | **Shubra Faculty of Engineering, Benha University** | *2016 – 2020*

- **Cumulative Grade:** Excellent with Honor (Ranked 6th cumulatively; 3rd during final two years).
- **Graduation Project:** Electrical Services Design and Home Automation for a 220-Bed Hospital (Grade: Excellent).

PROFESSIONAL TRAINING & CERTIFICATIONS

- Advanced Git – DataCamp (Sep 2026)
- Algorithms & Data Structures Course (Oct 2025 – Feb 2026)
- AI Fundamentals – DataCamp (Aug 2025 – Sep 2025)
- Vanilla PHP Course (May 2025 – Jul 2025)
- SQL Power Course (Apr 2025)
- Ultimate React Course (Feb 2025 – Mar 2025)
- Full-Stack Web Development – W3Schools (Jan 2024 – Jan 2025)
- Data Analysis Professional Track – DataCamp (Dec 2023 – Nov 2024)
